

**REVISED REQUEST FOR PROPOSAL**  
USDA-NRCS-IA-10-02  
WETLAND RESTORATION ASSISTANCE

**AGENCY**

UNITED STATES DEPARTMENT OF AGRICULTURE  
Natural Resources Conservation Service (NRCS)  
Des Moines, Iowa

**CATALOG OF FEDERAL DOMESTIC ASSISTANCE (CFDA) NUMBER**

10.072 -Wetlands Reserve Program (WRP)

**EXECUTIVE SUMMARY**

The Natural Resources Conservation Service in Iowa is requesting applications to provide implementation of restoration activities on eligible Wetlands Reserve Program. The objective of WRP is to provide technical and financial assistance to landowners in planning, designing and implementing wetland and associated upland restoration plans that maximize wildlife habitat in wetland systems, as well as provide water quality improvements, reduced soil erosion, reduced impacts of flooding and provide wildlife habitat opportunities for threatened and endangered species. Applicants will be responsible for assisting NRCS and landowners by providing technical assistance necessary to implement WRP restoration plans, while at the same time improving and protecting wetland habitat for environmental benefits. Performance may include any part or all operations necessary to inspection, and construction management activities for various wetland restorations, enhancement and creation practices; and other related conservation practices that meet NRCS standards and specifications.

Applications are being requested from eligible government or non-government organizations, tribes, or individuals for competitive consideration of cooperative agreements with a base year and up to four, one-year amendment periods.

**PROPOSAL DUE DATE AND ADDRESSES:** Proposals must be received in the Iowa NRCS State Office by **4:30 p.m., Central Time (CT) on August 23, 2010.** The address for hand-

delivered applications or applications using express mail or overnight courier service is:

Contracting Section, ATTN: Matthew Harvey, USDA Natural Resources Conservation Service, 210 Walnut Street, Room 693, Des Moines, IA 50309.

**FUNDING OPPORTUNITY DESCRIPTION**

**A. Legislative Authority**

The Wetlands Reserve Program (WRP) was authorized as part of the Food Security Act of 1985, Title XII, Public Law 99-198, as amended; Food, Agriculture, Conservation and Trade Act of 1990, Title XIV, Section 1237, Public Law 101-624, 104 Stat. 3584, 7 U.S.C. 3837, as amended; Omnibus Budget Reconciliation Act of 1993; Federal Agriculture Improvement and Reform Act of 1996; Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act of 1998 and Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Act of 2001 and as amended, Farm Security and Rural

Investment Act of 2002 and Section II of the Food, Conservation and Energy Act of 2008, P.L.110-234 authorized the Secretary of Agriculture to provide technical assistance under this program to eligible producers. The Secretary may request the services of non-Federal entities to assist the Secretary in providing the technical assistance necessary to develop and implement conservation programs under this title. The Secretary of Agriculture delegated the authority for the administration of WRP to the Chief of the Natural Resources Conservation Service. The Federal Grant and Cooperative Agreement Act of 1977 (31 U.S.C. 6301-6308, Public Law 95-224) is authorized to enter into grants and cooperative agreements to accomplish a public purpose or stimulation of an activity authorized by statute. The NRCS may do this through entering into cooperative agreements with an awardee or other cooperator.

## **B. Overview**

The purpose of the Wetlands Reserve Program (WRP) is a voluntary program to conserve, protect and enhance the nation's wetland ecosystems. The program promotes the restoration, enhancement, protection, maintenance and management of wetland systems and adjacent land that would contribute significantly to wetland functions and values. Through WRP, landowners may receive assistance to install or implement structural or vegetative wetland and associated upland restoration practices on eligible land. WRP provides that the Secretary may request the services of, and enter into cooperative agreements with, non-Federal entities to assist in providing specialized assistance necessary implement conservation plans under these programs. The agency is directing resources toward the restoration of degraded wetlands across the state of Iowa.

The NRCS is requesting proposals from qualified individuals and organizations that share a common interest in the conservation and restoration of wetland resources throughout Iowa.

## **C. Project Description**

The objective of WRP is to provide specialized assistance to landowners in planning, designing and implementing wetland and associated upland restoration plans that maximize wildlife habitat in wetland systems, as well as provide water quality improvements, reduced soil erosion, reduced impacts of flooding and provide wildlife habitat opportunities for threatened and endangered species. Applicants will be responsible for assisting NRCS by providing specialized assistance to implement WRP restoration plans, while at the same time improving and protecting wetland habitat for environmental benefits. Performance may include any part or all operations necessary to perform vegetative and hydrology restoration in a timely and effective manner. Work shall include any or all of the following activities: construction management activities for various wetland restorations, enhancement and creation practices; and other related conservation practices that meet NRCS standards and specifications. All services shall be provided in accordance with applicable NRCS policy and criteria that can be found at the following websites: NRCS Field Office Technical Guide: <http://efotg.nrcs.usda.gov>; and NRCS National Engineering Handbook, and National Engineering Manual References: <http://www.nrcs.usda.gov/technical/ENG>.

Awardees will perform all work in close coordination with the NRCS WRP Specialist, District Conservationist (DC) and Area Engineer. Once a project is received the awardee will complete the assigned project during the performance period identified in project documentation.

The awardee will be responsible for locating the practice site on the ground for layout work, as well as staking the job for construction work. These activities will occur in accordance with the NRCS provided design.

Wetland Engineering Practices and Biological Practices may include but are not limited to the following Conservation Practices: Wetland Restoration (657), Wetland Enhancement (658), Wetland Creation (659), Open Channel (582), and associated practice such as Critical Area Planting (342), Fence (382), Range Planting (550), Tree/Shrub Establishment (612), and Structure for Water Control (587); and others as deemed necessary and applicable by the Iowa NRCS. All practices are described in the NRCS electronic FOTG, which can be found at: <http://www.nrcs.usda.gov/technical/efotg/>.

The awardee will be expected to provide the inspection and quality control of each WRP restoration project, provide to the NRCS a monthly status report of work in progress and any other documentation as may be required by the NRCS standards and specifications.

There are currently 20 sites ready for restoration, with 39 known sites expected to be ready for restoration within six months after agreement award.

**Location of Services:** Throughout Iowa

**USDA Service Center Location:** All Iowa Field Offices

Iowa NRCS anticipates the following involvement, which is deemed substantial, in carrying out projects funded with Federal assistance provided through a cooperative agreement under this announcement.

**Iowa NRCS will:**

- Conduct an initial briefing at the Iowa NRCS State Office in Des Moines, Iowa prior to award to discuss the goals and objectives of the project and items of work to be conducted under the agreement.
- Designate a liaison to participate in the planning and management of the cooperative agreement and coordinate activities between the awardee and Iowa NRCS.
- Identify and prioritize work assignments at the Iowa State Office level with consultation from the Iowa NRCS Field Offices.
- Provide for state level coordination/guidance of the technical specialists.
- Provide quality assurance for services provided under the agreement.
- Provide access to NRCS technology and technical tools to the maximum extent possible.

- Provide necessary permits, cultural resource checks, and NEPA compliance.
- Approve all new technologies and innovative practices, including applicable standards and specifications, prior to the applicant applying those practices.
- For each "work area" the Iowa Assistant State Conservationist for Programs (ASTC), State and Area Specialist(s), FO and the District Conservationist(s) (DC) will participate in the planning and managing of the cooperative agreement(s) and coordinate activities between the awardee and the NRCS.
- The NRCS will identify and prioritize work assignments for completing activities required to implement the wetland and associated upland restoration components of each conservation plan.
- The NRCS will monitor the awardee's progress and suspend work if agreement or conservation plan requirements or NRCS standards and specifications are not met.

#### **D. Funding Availability**

All awards are subject to the availability of sufficient funds being appropriated by Congress and apportioned by the Office of Management and Budget (OMB) to support the addition and full cost of service to implement specialized assistance activities. Cooperative agreements will be awarded competitively to applicants. Cooperative agreements have been determined to be the appropriate funding instrument because of the substantial involvement of NRCS in providing technical oversight and coordination of planning, designing and implementing wetland and associated upland restoration activities. It is anticipated that approximately **\$3.0 million** will be available for planning, designing and implementing wetland and associated upland restoration plans in Fiscal Year 2010. The amount of funds available for this program is not fixed and may vary considerably from the current funding level. Amendments to the agreement(s) may be developed upon availability of funding in future years (approximately a 5-year period). The work will be performed statewide.

The cooperative agreements will include one base-year and four, one-year amendment periods. Work under this cooperative agreement is subject to satisfactory negotiation of individual or grouped conservation plans of operation projects. There will be no minimum or maximum price on any conservation plans of operation projects. The maximum amount of reimbursement for each cooperative agreement period (base-year and each option-year) shall be determined by available funds. There shall be no guaranteed minimum. Multiple cooperative agreements may be awarded as a result of this announcement. Projects will be ordered on an as-needed basis beginning from the date of the award of the agreement for a period not to exceed five years.

#### **E. Indirect Costs**

Section 708 of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, limits indirect costs under cooperative agreements between USDA and nonprofit institutions, including institutions of higher education, to ten (10) percent of the total direct costs of the agreement. Section 708 authorizes an exception to the ten-percent limit for institutions that compute indirect cost rates on similar basis for all agencies for which the Act

makes appropriations. If requested, indirect costs must be justified and may not exceed the ten percent limitation or the current rate negotiated with the cognizant Federal-negotiating agency. Applications from colleges and universities must provide a statement in the budget narrative verifying that the indirect costs requested are in accordance with institutional policies. Iowa NRCS will identify and consider the value of federally supported facilities, supplies, vehicles and equipment in negotiating allowable indirect costs for Conservation Districts or other Partners currently operating within USDA Service Centers.

## **F. Eligible Applicants**

A listing of possible eligible applicants is as follows:

- County governments
- City or township governments
- Special district governments
- Nonprofits having a 501(c) (3) status with the IRS, other than institutions of higher education
- Nonprofits that do not have a 501(c) (3) status with the IRS, other than institutions of higher education
- Private organizations and for profit enterprises
- Tribal governments
- Individuals

## **G. Application and Submission Information**

**(Proposal amendments and notifications, if required, will be managed through grants.gov and associated e-mails registered on that system.)**

### **1. How to Obtain Application Materials**

All OMB standard forms necessary for proposal submission are posted on the following site: [http://www.grants.gov/agencies/aapproved\\_standard\\_forms.jsp](http://www.grants.gov/agencies/aapproved_standard_forms.jsp)

- Standard Form 424 Application for Federal Assistance (submit with proposal)
- Standard Form 424B Assurances – Non-Construction Programs (submit with proposal)
- Standard Form 424D Assurances – Construction Programs (submit with proposal)
- SF-LLL Disclosure of Lobbying Activities (after award)
- SF-425 Financial Status Report (After award)
- SF-270 Request for Advance or Reimbursement (after award)
- AD-1047 Certification Regarding Debarment, Suspension and Responsibility Other Matters – Primary Covered Transactions
- AD-1048 Certification Regarding Debarment, Suspension Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions

## **2. Proposal Content and Format**

Proposals must contain the information set forth below in order to receive consideration for an award. Applicants should not assume prior knowledge on the part of NRCS or others as to the relative merits of the work described in the application. Proposal must include all required forms and narrative sections described below; incomplete applications will not be considered. Do not include letters of support, endorsement or recommendations for award.

**It is the sole responsibility of the applicant to complete the grant or cooperative agreement application. Applicants should refer to <http://www.grants.gov> to apply. Further, the applicant must respond to the Evaluation Factors for Award, provide cost data to support a proposed budget and include project narratives with a detailed discussion of the project and methodology used.**

## **3. Cover Sheet.**

Applications must use Standard Form 424 (including SF 424A and 424B) with the required information filled in and the certified assurance signed as the cover sheet for their proposal. NOTE: All applicants must provide DUNS number in Block 5. By signing the application form the applicant is providing the required certifications set forth in 7 CFR Part 3017 regarding Debarment and Suspension and Drug Free Workplace, and 7 CFR Part 3018, regarding Lobbying.

## **4. Project Funding.**

The SF424 will document pricing information for the initial one year project period. Address all data points as applicable. The evaluation of pricing information will be to insure all costs are allowable in accordance with the following paragraph. You may, show the percent of funding to be provided by each source in Block 15 of the SF 424. A spreadsheet may be attached to the SF 424 including rates for the following: personnel listed by labor category, equipment, materials and supplies, travel, all other costs and indirect costs. For successful awardee(s), any agreed to rates will be incorporated into the agreement and be the basis for future orders.

Show all funding sources. Funds may be required from the NRCS under any of the line items listed above provided that the item or service for which support is required is identified as necessary for successful conduct of the proposed project, is allowable under the authorizing legislation and the applicable Federal cost principles and is not prohibited under any applicable Federal statute. Salaries of project personnel who will be working on the project may be requested in proportion to the effort that they will devote to the project. Show any costs that the applicant will contribute in support of the project, including the organization's level of commitment in terms of the staff, equipment resources, and/or funding support necessary to leverage the project.

NRCS intends for the final project funding to be determined on a site by site basis. WRP is a detailed and extensive restoration implementation process. For agreement obligation purposes, an average restoration cost per easement will be used to support "Attachment B – Work Products" of the agreement. NRCS will complete the

engineering, survey, design, and zone specific seeding plans which will provide the basis for the government estimate. NRCS will forward the conservation plan, schedule, and design specifications to the awardee(s) and request the submission of a cost proposal and breakdown. NRCS will negotiate with the awardee(s) if the proposed costs are not fair and reasonable considering the government estimate. The agreement Attachment B will then be amended as necessary to show funds committed to each individual easement restoration.

## **5. Project Description.**

The application shall include a narrative statement that addresses the following as a minimum:

- a) A description of the resources and experience of the organization necessary to successfully perform implementing wetland and associated upland restoration activities.
- b) The organization's level of commitment in terms of the staff, equipment resources, and/or funding support necessary to leverage the cooperative agreement.
- c) A brief description of the capabilities to perform the terms of the cooperative agreement, including a brief description of the organizational entity and of the qualifications, employment status, current responsibilities, and proposed level of effort for the project coordinator, and staff responsible for implementation. Resumes for key personnel should be included in an appendix to the application. Similar information requested in this paragraph may also be included for subawardees, contractors, subcontractors, and suppliers that would be beneficial for proposal evaluation.
- d) A list of past experiences with providing implementation of wetland and associated upland restorations for conservation contracts.
- e) The application shall include an appendix. Material should be included only when necessary to support information provided in the narrative. Copies of documents, brochures, etc. are encouraged to demonstrate experience, knowledge, skills and abilities.

## **6. Certifications.**

All applicants must include a signed SF 424B, Assurances, Non-Construction Programs. By signing and submitting an application, assure and certify that they are in compliance with following from 7 CFR:

- a) Part 3017, Governmentwide Debarment and Suspension (Non-procurement);
- b) Part 3018, New Restrictions on Lobbying;
- c) Part 3021, Governmentwide Requirements for Drug-Free Workplace (Financial Assistance).

## **7. DUNS Number.**

A Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number is a unique nine-digit sequence recognized as the universal standard for identifying and keeping track of over 70 million businesses worldwide. A Federal Register notice of

final policy issuance (68 FR 38402) requires a DUNS number in every application (i.e., hard copy and electronic) for a grant or cooperative agreement (except applications from individuals) submitted on or after October 1, 2003. Therefore, potential applicants should verify that they have a DUNS number or take the steps needed to obtain one. For information about how to obtain a DUNS number go to <http://www.grants.gov/RequestDUNS> or call 1-866-705-5711. Please note that the registration may take up to 14 business days to complete.

**8. Required CCR Registration:** The Central Contractor Registry (CCR) is a database that serves as the primary Government repository for contractor information required for the conduct of business with the Government. This database will also be used as a central location for maintaining organizational information for organizations seeking and receiving grants or cooperative agreements from the Government. Applicants must register with CCR. To register, visit <http://www.ccr.gov>. Allow a minimum of 5 days to complete the CCR registration.

**9. How to Submit a Written Proposal**

Applicants must submit one signed original and five complete copies of each project application. Each copy of the proposal must be stapled securely in the upper left-hand corner. Applications submitted via facsimile or email will not be accepted.

Submit written proposals to:  
Matthew Harvey, Contract Specialist  
Natural Resources Conservation Service  
210 Walnut Street, Room 693  
Des Moines, Iowa 50309

**10. Proposal Due Date**

Proposals must be received no later than August 16th, 4:30 p.m. Central Standard Time. Proposals received after that time will not be considered. A proposal's postmark date is not a factor in whether an application is received on time. The applicant assumes the risk of any delays in proposal delivery. Proposals will not be accepted by facsimile machine submission. AGENCY CONTACTS: Matthew Harvey, Contract Specialist, or Michelle Bales, Contract Specialist, (515) 284-4506.

**11. Acknowledgment of Submission**

Proposals received by the due date will be acknowledged with an official letter. If an applicant has not received an acknowledgment within 30 days of the submission, the applicant must contact the administrative contact (see "Agency Contacts" above) immediately. Failure to do so may result in the application not being considered for funding.

**12. Evaluation Criteria:**

The Iowa NRCS anticipates the possibility of multiple awards for this announcement.

Prior to the evaluation review, each application will be screened for completeness and compliance with the provisions of this notice by the appropriate NRCS staff. Incomplete applications and those that do not meet the provisions of this notice will be eliminated from competition and notification of elimination will be mailed to the applicant.

Applications meeting the provisions of this notice will be evaluated by an evaluation team against the evaluation criteria. The evaluation team will make recommendations to the State Conservationist for final selection and award.

The focus of the evaluation will be the responses to the evaluation criteria. There is no sample project or associated pricing required. Proposers are welcome to reference NRCS restoration examples or sample projects if they choose. Capability, not cost, is the basis of the evaluation process and following criteria.

The applications will be evaluated using the following criteria that are listed in descending order of importance:

**A. Specialized experience and technical competence in the type of work required (45%)**

Evaluation will be based on the extent of related experience in performing planning, designing and implementing wetland and associated upland restorations. Consideration will be given to those applicants with knowledge of and direct experience in implementing wetland and associated upland restorations in Iowa. Some key areas of expertise that will be evaluated include, but are not limited to:

Organizational capabilities. The adequacy of organizational resources and experience to successfully install wetland restoration projects. Share in a common mission that supports the natural resource conservation efforts with private landowners.

Project personnel. The reasonableness and feasibility of the applicant's approach and expertise for successfully achieving the objectives of the project within the required time frame.

Understanding the intent of WRP. The applicant's recognition of the value and need of the project and the full understanding of the intent of WRP.

Ability to demonstrate successful past history and credibility of working with private landowners.

Experience working on wetland restoration in the State of Iowa or similar ecosystems, to include expertise in specific types of ecozones. Examples of previous work shall be documented for review.

**B. Professional qualifications necessary for satisfactory performance (25%)**

Evaluation will be based upon the number of qualified personnel, their knowledge and experience associated with the requirements above, and their availability to perform work on this agreement.

**C. Capacity to accomplish the work (15%)**

Evaluation will be based upon the number of qualified personnel, the quantity of existing work under contract and the schedules for completion of the existing work.

**D. Past performance regarding work of this nature (15%)**

Past experience with other government agencies and other organizations in regards to work of this nature.

Quality and timeliness of performance of work performed.

**13. Selection**

Each proposal will be evaluated and ranked in accordance with the evaluation factors listed above. Discussions may be held with each applicant regarding the applicant's experience and operational methods. NRCS reserves the right to select more than one applicant for award. Applicant(s) may be selected to perform work by Iowa NRCS Easement Area(s), Ecozone(s), other geographical or program area, statewide or combination(s) thereof. After selection, NRCS will enter into negotiations with the selected applicant(s) to discuss cost and the terms and conditions of the cooperative agreement to be signed. The cooperative agreement will identify the USDA Field Office(s) or locations to be served. NRCS has the option to cancel the announcement if there no qualified applicants or limit the number of awards made from this announcement. If multiple awards are made, NRCS reserves the right to designate what restoration projects are to be completed by which awardee. It is expected that restorations will be packaged in groups to obtain the best value to the government.

**14. Award Information**

**A. Award Notification**

Applicants who have been selected will be notified by the State Conservationist. Applicants whose proposals have not been selected will be notified by official letter.

**B. Cooperative Agreement**

The NRCS will use a cooperative agreement with selected applicants to document the agreement parameters. The cooperative agreement will include:

Project purpose;  
Project objectives and deliverables;  
Project progress and budget reporting requirements;  
Award amount and budget information;  
Information regarding requests for advance of funds or reimbursement;  
Other requirements and terms deemed necessary to protect the interests of the United States.

Neither the approval of any application nor the award of any cooperative agreement commits or obligates the United States to provide further support of a project or any portion thereof or implies any endorsement.

### **C. Reporting Requirements**

Awardees must submit a Financial Status Report (SF-425) no later than 30 days of each quarter and 90 days after completion of project.

In addition, every 30 days, the awardee must submit a written progress report to the NRCS Iowa State Office. Each progress report shall cover work performed during the previous 30-day period, including any funded or unfunded time extensions, a comparison of actual accomplishments to project goals.

The NRCS will designate a Government Representative and an Administrative contact for the agreement. These individuals will have technical oversight and administrative oversight responsibility for the agreement. The awardee must comply with any requests for information from these individuals. NRCS recommends that the awardee work closely with these individuals throughout the course of the agreement.

### **15. Terms and Conditions of the Award**

This announcement is subject to “Variations in Quantity” and “Variations in Delivery”.

By accepting an award, the applicant assures the United States Department of Agriculture (USDA) that the program or activities provided for under this agreement will be conducted in compliance with all applicable Federal civil rights laws, rules, regulations, and policies.

Successful applicants will attend an initial briefing prior to award to discuss the goals and objectives of the project and items of work to be conducted under the agreement.

The applicant shall comply with all applicable laws, regulations, Executive Orders and other generally applicable requirements, including those set out in 7 CFR 3015, 3016, 3017, 3018, 3019 and 3052 which will be incorporated into the

agreement by reference and such statutory provisions as are specifically set forth in the agreement.

The OMB Circulars will be incorporated by reference and made a part of each agreement awarded under this process. Applicants are encouraged to review the appropriate circulars prior to requesting federal funds. OMB circulars may be viewed online at [http://www.grants.gov/agencies/aapproved\\_standard\\_forms.jsp](http://www.grants.gov/agencies/aapproved_standard_forms.jsp). CFR's may be found at <http://www.gpoaccess.gov/CFR/>. Failure of an applicant to comply with any provision may be the basis of withholding payment for proper charges made by the applicant and for termination of support. Federal Statutes and regulations that apply to this program include, but are not limited to the following:

- 7 CFR Part 3 – USDA implementation of OMB Circular A-129 regarding debt collections;
- 7 CFR Part 1, Subpart A – USDA implementation of the Freedom of Information Act;
- 7 CFR Part 15, Subpart A – USDA implementation of Title VI of the Civil Rights Act of 1964;
- 7 CFR Part 3015 – USDA Uniform Federal Assistance Regulations, implementing OMB directives (i.e., Circular Nos. A-102, A-110, A-21, A-87, A-122) and incorporating provisions of the 31 U.S.C. 6301-6308, as well as general policy requirements applicable to recipients of Departmental financial assistance;
- 7 CFR Part 3016 – USDA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments;
- 7 CFR Part 3017 – USDA Implementation of Governmentwide Debarment and Suspension (non-procurement) and Governmentwide Requirements for Drug-Free Workplace;
- 7 CFR Part 3018 – USDA implementation of New Restrictions on Lobbying. Imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements and loans;
- 7 CFR Part 3019 – USDA Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations;
- OMB Circular A-21 – Cost Principals for Educational Institutions;
- OMB Circular A-87 – Cost Principals for State, Local and Indian Tribal Governments;
- 7 CFR Part 3052 – USDA Implementation of Audits of States and Local Governments and Non-Profit Organizations;
- 5 CFR part 2635 – Standards of Ethical Conduct;

Comply with Public Law 109-282 (S2590), Federal Funding Accountability and Transparency Act of 2006, and 2 CFR, Part 175 (b), Award Term for Trafficking in Person.

Comply with the “Privacy Act.”

Additional information related to the Wetlands Reserve Program can be found at the following links: Wetlands Reserve Program:

<http://www.nrcs.usda.gov/programs/wrp/>
